Pure Wines and Liquors, for Medicinal Purposes.

Physician's, Druggists and invalids have often experimented the almost impossibility of procuring a pure wine or liquor in the country, when it becomes necessary to use it for the restoration of health. The arrangements of the Grædienburg Company for the purpose of guarding against imposition and adulteration, both in Europe and this country, are complete, and any bottle bearing their seal, may be regarded as unquestionably pure—and unadulterated.

THE undersigned having procured the exclusive right to this State, effers forsale, First Premi um Machine: MANNY'S PATENT ABJUSTABLE NORTHERN ILLINOIS REAFER AND MOWER.

Awarded the first premium for mowing, and the second for reaging, at the New York State Fair, in the great trial at Geneva mid New York, in Juic, in competition with eleven other Machines, awarded a Silver Medal at the Objo State Fair for the best reaper and mower, and received the highest reaping and mowing machine.

The true merit of this Machine has given it a great triumph over all others, and being a perfect combination of a Reaper and Mower, it comes to the farmer with double values and it is clearly demonstrated to be the only successful combination of Reaper and Mower.

As a mower it is simple and as perfect as though constructed expressly for mowing, and as a Reaper it is as simple and perfect as if constructed for reaping only—all the change that is necessary from one plan to the other, is to insert er remove a loose platforin.

With a pair of horses, one drver, the Machine will mow from 15 to 20 acres per day, depending on the ground. It will reap the same quantity requiring two hands, in running over broken ground. The driver can lower or elevate as he may choose.

The price of the Machine, delivered at Nashville, is \$250,

he may choose. The price of the Machine, delivered at Nashville, is \$250, or they will, if ordered, be delivered at Memphis, or any point on the Mississippi, between there and Mill's Point, or at any point on Cumberland river, between the State line and Nashville, or at Chattanooga, or at any point between there and Nashville, on the Hallroad, at the same price. They are manufactured in New York; and as it will require time to bring them on, all who wighto procure one for the next server, would do well to address we as some as convenient. season, would do well to address me as soon as convenien at Nashville. ap. 5. DR. ARNOLD'S UNION PILLS.

DR. ARNOLD'S UNION PILLS.

Grass H.L., Tenn., January 16, 1852.

Dr. Arcold—Dear Sig.—I consider it but an act of justice to yourself and the community, to state to you the very great benefit! have received from the asc of your Union Pills. Having been for quita a number of years, greatly troubled with dispepsia, and constipation of the bowels; at times alarming me greatly. I used every other remedy, almost that I ever rend or head of for the disease, all without the least beneficial effect. I had almost come to the belief, that it was useless to try any more; as I labored under great debility, and my stomach was greatly injured by taking the different Pills, medicine, Ac.; but on bearing my neighbors speak so frequently of the beneficial effects of your Union Pills, I concluded to give them a trial, and hought a fifty cents vial, and commenced their use. From the first dose of one Pill I was satisfied it was the medicine for me. I have not yet used quite one vial, and can now say to you with the utmost pleasure, that I have not for the last ten years felt as well, or enjoyed such good bealth, as I have since commenting the use of your Pills. I would take no sum for the good these Pills have doze me, and almost every branch of my family have used them with the same happy effect. At times some of the negroes have had symptoms of fever—at the first complaint I have given them one or two Pills, and never had to repeat the dose but once, which effected a curs. Your other medicines used by my family, have had the most happy effect. I shall always keep a supply of your Pills on hand, and I think that no one, laboring as I have under great debility and dyspepsia, with all their evil consequences, but what would, after a use of your medicines, join me in saying the same of them.

Respectfully W MASTERSON.

The swelling and pain had extended up nearly to the arm-pit, and occasionally she could scarcely breathe. She was confined for a considerble time, during which she was attended by some of our best physicians, but they gave her no relief. She procured a box of the Hebrew Plaster, and it relieved her almost immdiately, and now she keeps a supply of it on hand constantly. THE TRUE DIGESTIVE FLUID, OR GASTRIC JUICE, PREPARED from Rennet, or the Fourth Stomach of the Ox, after the directions of Baron Liebig, the great Phy-siclogical Chemist, by J. S. Houghton, M. D., Philadelphia,

Penn.
This is a truly wonderful remedy for indigestion, Dyspepsia, Jaundice, Liver Complaint, Consumption and Debility, curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

Infl' a tea-spoonful of Pupsin, infused in water, will digest or dissolve five pounds of rocast beef in about two hours, out of the stomach.

or dissolve five pounds of roast beef in about two hours, out of the stormach.

Pepsin is the chief element or digesting principle of the Gastric Juice—the solvent of the locd, the purifying, preserving and stimulating agent of the stormach and intestines. It is extracted from the digestive atomach of the Ox, thus forming an artificial digestive fully precisely like the intural Gastric-Juice in its chemical powers, and furnishing a crosplete and perfect substitute for it. By the aid of this preparation, the pains and evils of Indigestion and Dyspeps a are removed just as they would be by a healthy stomach. It is doing wonders for dyspeptics, during cases of Debility, Emaciation, Nervous Decline and Dyspeptic Consumption, supposed to be on the verge of the grave. The scientific evidence upon which it is based is in the highest degree curious and remarkable.

Scientific Evidence.—Baron Liebig, in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be prepared from the american membrane of the stomach of the Ox, in which various articles of food, as ment and eggs, will be sokened, changed and digested, just in the same manner as they would be in the amman stomach.

Dr. Preira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 25, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Priera.

Dr. Combe, in his valuable writings on the "Paysiclogy of Digestion," observes that "a distinuition of the due quantity of the Castric Juice is a prominent and all-prevailing cause of Dyspepsia." and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding every thing else to fall, land recourse to the Gastrie Juice, obtained from the stomachs of living animals, which proved completely soccessful."

with this complaint, finding every thing else to fail, lad recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely soccessfel."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in Physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Dr. Simon's great work, the "Chemistry of Man," (Lee & Blanchard, Philadelphia, 1846, pp. 331-2.) says: "The discovery of Pepsin forms a new era in the chemical history of digastion. From recent experiments we know that food is dissolved as rapidly in an artificial digestive fluid, propared from Pepsin, as it is in the natural Gastric Juice itself.

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice obtained from the living human stomach, and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestior."

Dr. John W. Draper, Professor of Chemistry in the College of the University of New York, in his "Text Book of Chemistry," page 386, says: "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every physician, and is used as a text-book in all the colleges, is full of evidence similar to the above, respecting the remarkable digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in nruficial digestion, or as a remedy for diseases of the stomach, and deficient secretion of the Gastric Juice.

All modern works on Chemistry, Materia Medica and Physiol

All modern works on chemistry, materia mentes and Physiology, and all good Medical Dictronaries, describe the chapacter and proporties of Pepsin, and state many interesting details respecting it.

The fact that an Artificial Digestive Finish, or Gastric Juice. perfectly resembling the natural fluid, may be reachly pre-pared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggestized to the

rate cases, and the cures were not only rapid and won-

the too free use of ardent spirits. It almost reconciles health with intemperance.

Old Stomach Complaints.—There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad it may be, it gives instant relief! A single dose removes all the utipleasant symptoms; and it only needs to be repeated for a shart time to make these good effects permanent. Parity of blood and vigor of body follow at once. It is particularly excellent in cases of Naturea, Verniting, Cramps, Soreness of the Pit of the Stomach, Distress after Eating, Low, Cold State of the Blood, Heavingss, Lowness of Spirits, Despondency, Emaciation, Weakness, Tendency to Insanity, Sociede, &c.

Dr. Houghton's Pepsin is sold by nearly all the dealers in fine drugs and popular medicines throughout the United States. It is prepared in powder and in fluid form, and in prescription wals for the use of physicians.

Private Circulars for the use of physicians, may be obtained of Dr. J. S. Houghton, or his agents, describing the whole process of preparation, and giving the authorities upon which the claims of this new remody are based. As it is not a secret rensely, no objection can be raised against its use by physicians in respectable standing and regular practice. Price One Domain per Bottle.
